EXPERIENCE

Skanska (General Contractor)   New York
Senior Project Engineer   Dec 2015 - Present

Laguardia Airport Rebuild (Architecture Team)

- Works with the interior architecture team on design decisions for the third floor of the Central terminal. Assists daily with execution of fit out throughout 250,000 sq. ft. floor. Provides field support with technology: Structionsite (cloud based 360 photos), Navisworks (MEP coordination), Procore(Submittals, RFIs, Punchlist tracking, Observation reports), Bluebeam(markup PDFs, customize PDFs for work).

Astoria N/W Replacement Four Station

- Handled daily B2B sales of building tools and equipment. Used Bluebeam to markup drawings and modeling software (Navisworks) to carry out enhancements to four stations on the N/W line of the New York City Subway.

Croton Harmon Yard Phase V

- Provided MEP coordination using drawings and specs as well as Navisworks modeling software in order to help employees create a wheel maintenance facility and train repair shop.

Universe Point (Footwear Company)   New Jersey
Product Designer/UX Researcher/UX Content Strategist   2015 - 2018

- Performed UX research by creating a competitive analysis, conducting surveys and user interviews of the ultimate frisbee community.
- Compiled user feedback into user personas and created a presentation to investors which launched the startup Universe Point.
- Collaborated with a Web Developer to design a user-friendly and appealing layout for universepoint.com on the desktop and mobile platform.
